

My Place in Time

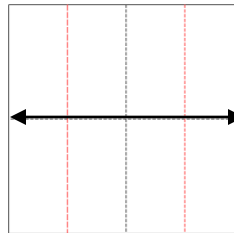

1. Tape two pieces of 8 ½ X 11 pieces together.

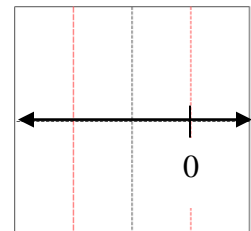

2. Fold your paper into eight squares.

3. Draw a timeline across the center with arrows on each end.

4. Divide your timeline into **B.C.E.** and **C.E.** at the third fold (0).

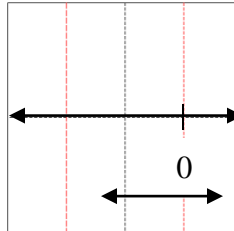

5. Mark every half inch starting at zero.

6. Start with zero, count back by 2,000's to 52,000 B.C.E.
7. Start with zero, count forward by 2,000's to 16,000 C.E.
8. Mark the Old Stone Age with blue (pg 44 timeline).

9. Mark the New Stone Age with green (pg. 52 timeline).
10. Mark the events on pp. 42-3. Subtract 2000 from each since it's about 2000 C.E.
11. Use circa (c.) on three dates. Circa means about.
12. Place 2016 C.E. on the timeline.
13. Make a 10 inch inset timeline, enlarged area, so you can see 2016 C.E. and the years before (your birth), and after (your future).

14. Put your birth and today on the timeline.
15. Put five events on the small timeline about your life. Three significant dates you plan for your future (examples: first job, graduation, significant birthday, 1st book published, 1st invention (technology!)). Two events that have happened in the past.
16. Put the title, "My Place in Time" at the top of your paper.
17. Staple the rubric on the front. Show off your talents and knowledge!
18. ***Events should have a date, caption and color picture.
