

The Earth's Geography

1. Label the continents as shown.
2. Based on the map, how do you think people decided what a “continent was? How did they decide the boundaries of the continents?
3. Which continent has the longest land border?
4. Which continent has the shortest land border?
5. What divides Africa and Asia?
6. What divides Australia from Asia?
7. Why do you think geographers are willing to unite Asia and Europe as a single continent called *Eurasia*?
